

# Interested in a Healthcare Career?

Attend Schneck's FREE

## HEALTH CAREER DISCOVERY PROGRAM

June 6-8, 2016 | 8 am-noon

Schneck Medical Center welcomes middle and high school students to learn about the many areas of healthcare and how to prepare for a future in the medical field. Featuring a variety of speakers and tours, attendees will receive hands-on practice in many different departments within the hospital.

### Topics to be covered include:

- Surgical Services— Robotic surgery, anesthesia, nursing, and sterile processing
- Simulation Lab— Meet Simon the Sim Man and learn how Schneck uses the lab to improve patient care
- Internal Medicine Associates— Learn what a hospitalist does within the hospital
- Infection Prevention— See what kind of germs are lurking on your hands and how we work to make our patients safer every day
- Diagnostic Imaging— Tour X-ray, MRI, CT, Ultrasound, and Nuclear Medicine
- Schneck Obstetrics & Gynecology— Office tour, ultrasound and learn about a day in the life of an OBGYN
- Emergency Services— What happens when you call 911 or visit the Emergency Room
- Rehabilitation Services—Tour and learn about Speech, Physical, and Occupational Therapies

This three day program will be held from 8:00 am to 12:00pm daily. Ask a guidance counselor for the complete agenda. Sessions will be held in the Schneck Auditorium, located on the first floor of the hospital near the visitor entrance, and throughout the hospital. A certificate of completion will be provided at the end of the sessions.

**Openings are limited, so RSVPs are requested.**

To learn more about the program or to RSVP, contact Angie Cockerham by calling **(812) 523-0630** or emailing **[acockerham2@schneckmed.org](mailto:acockerham2@schneckmed.org)**.
