

Seymour Community School Corporation Volunteer Status Determination Procedures

Seymour Community School Corporation utilizes the following guidelines for determining the volunteer status of individuals who seek to assist the school in such capacities as the following: student tutoring, attending and chaperoning school field trips and/or any extracurricular activities, driving students to events, providing classroom assistance, or any other school conducted activities that may place the volunteer candidate in a direct or indirect supervisory or assistance role with students.

Volunteer assistance status include the following determinations and their definitions:

Full Participatory Status – This level indicates there are no restrictions or precautions needing to be in place for the volunteer. Either no misdemeanor or felony offenses are present on the criminal history report, or the offense and/or the time of commission is considered to be significantly in the past and of no concern at this time.

Partial Participatory Status – Past offense are reported due to their nature. The administration determines the volunteer may attend school events where teachers or another fully cleared adult volunteer is present to assist or supervise student activities. They are not to be in a one-on-one situation with a student nor are they to be placed solely in charge of a group of students.

Denied Participatory Status – Criminal (Felony) or misdemeanor convictions are present on the legal report and they are deemed of a serious enough nature that it is necessary to fully restrict the applicant from assisting the school with any student activities.

NOTE: The charge of the highest level will be the determining factor for access.

Charges and Volunteer Determination Check List:

OFFENSE	Type of Offense	ACCESS
